Ability to generate new ideas (creativity); GC 7. Ability for abstract thinking, analysis and synthesis.  PC 1. Ability to select and use concepts, methods and management tools,		

develop and implement appropriate strategies and plans;

- PC 3. Ability for self-development, lifelong learning and effective self-management;
- PC 4. Ability to effectively use and develop the organization's resources;
- PC 5. Ability to create and organize effective communication in the management process;
- PC 6. Ability to form leadership qualities and demonstrate them in the process of managing people;
- PC 7. Ability to develop projects, manage them, show initiative and entrepreneurship skills;
- PC 8. Ability to use psychological technology to work with staff.
- Additional to the educational and professional program
- PC 9. Ability to analyze and structure the problems of the organization, make effective management decisions and ensure their implementation;
- PC 10. Ability to manage the organization and its development.

# Special (professional) competencies of the specialty (PCH) as defined by the higher

education institution

- PCH 1. Ability to apply the current legal framework in Ukraine and in the world for contract and procurement management in projects and programs.
- PCH 2. Ability to analyze and apply in practice the principles, methods and rules of quality management.
- PCH 3. Ability to understand the nature, purpose and role of the process approach in management; to form a single information space to provide information support for project management.
- PCH 4. Ability to conduct organizational and process modeling of the organization (project) and make effective management decisions to improve business processes.
- PCH 5. Ability to form a single information space at the enterprise to provide information support to the strategic management of VET.
- PCH 6. Ability to thoroughly choose the project financing strategy, justify its economic efficiency, use the methodology and relevant project evaluation criteria.
- PCH 7. Ability to carry out investment, economic, financial, environmental, marketing, technical and social analysis of the organization and the project.
- PCH 8 Ability to use existing methods and methodologies for the development and implementation of projects / programs used in modern management practice of local governments (MHI) and public administration.
- PCH 9. Ability to analyze and apply in practice the principles, methods and rules of quality management in IT projects.
- PCH 10. Professional mastery of modern specialized project management software products and research tools required for project management.
- PCH 11. To possess the ability to organize the selection of projects for a sustainable portfolio of project-oriented IT organization and strategic

management.

PCH 12. To be able to establish criteria by which the organization determines the further direction of development, to develop and implement appropriate strategies and plans taking into account risks.

PCH 13. Ability to apply methods and technologies in accordance with current project management standards and project stakeholder management programs.

#### 7 – Program learning outcomes

# Program learning outcomes (PLO), as defined by the higher education standard

PLO 1. To critically comprehend, select and use the necessary scientific, methodological and analytical tools for management in unpredictable conditions;

PLO 2. To identify problems in the organization and justify solutions;

PLO 3. To design effective management systems for organizations;

PLO 4. To substantiate and manage projects, generate business ideas;

PLO 5. To plan the activities of the organization in strategic and tactical terms;

PLO 6. To possess the skills to make, justify and ensure the implementation of management decisions in unpredictable conditions taking into account the requirements of applicable law, ethical considerations and social responsibility;

PLO 7. To organize and carry out effective communication within the team, with representatives of various professional groups and in the international context;

PLO 8. To apply specialized software and information systems to solve the organization's management problems;

PLO 9. To be able to communicate in professional and scientific circles in the state and foreign languages;

PLO 10. To demonstrate leadership skills and the ability to work in a team, interact with people, and influence their behavior to solve professional problems;

PLO 11. To provide personal professional development and time management.

Additional to the educational and professional program

PLO 12. To be able to delegate the leadership and authority over the organization (department);

PLO 13. To be able to plan and implement informational, methodological, material, financial and personnel support of the organization (department).

# Program learning outcomes (PLOHEI) as defined by the higher education institution

PLOHEY 1. Carry out selection, negotiations and signing of agreements on the project, control over supply of project resources (materials, equipment, services)

PLOHEY 2 Develop a quality management plan, ensure and control the quality of project activities.

PLOHEY 3 Perform modeling in notations IDEF0, Process, Procedure, EPC, BPMN; create appropriate regulatory documentation.

PLOHEY 4. Carry out simulation modeling and functional-cost analysis of processes, optimize business processes based on such analysis.

PLOHEY 5. Be able to design and optimize strategically important business processes and use IT tools for strategic management of VET.

PLOHEY 6. To be able to use modern software for project analysis, visualization of the results of such analysis, providing information support for project management.

PLOHEY 7. Carry out an analysis of project effectiveness, in particular, in conditions of uncertainty and risk, effectively use project resources, choose an effective project financing strategy.

PLOHEY 8. To use the methodology of project management in the management of local self-government and public administration for their own institutional development, as well as ensuring the functioning and development of settlements and territories.

PLOHEY 9. Develop a quality management plan, ensure and control the quality of project activities in IT projects.

PLOHEY 10. Using the tools, to quantify the studied factors that affect the effectiveness of project implementation.

PLOHEY 11. To make a choice and to use tools of strategic management of the project-oriented IT organization.

PLOHEY 12. Identify the characteristics of each of the potential risks, conduct a quantitative and qualitative assessment of the possible consequences of risks for the project and develop a risk management plan.

PLOHEY 13. Ensure effective work with project and program stakeholders.

#### 8 – Resource support for program implementation

### **Staffing**

The quality level of professional training of masters is ensured by the qualified scientific and pedagogical staff of the qualifying department of project management in urban economy and construction and other departments of the University, which includes doctors and candidates of sciences, professors, associate professors. Practitioners, who are in charge of structural units of communal enterprises and have extensive experience in urban economy are involved in the teaching of specialty disciplines.

Two teachers have a B-2 level English language certificate/

#### Logistics

Lectures are held in classrooms with multimedia equipment.

Practical classes are held in specialized computer classes with the use of information and communication equipment, use of information systems and software products applied in management. A lot of these products have already been implemented or are being actively implemented in the educational process: MS Project, Teamwork, TeamLab., Open Workbench., GanttProject, dotProject., Outlook, OneNote, EverNote, Nirvana, Wunderlist, Toggl, MS Office, Office 365, Документ. онлайн, AllFusion Process Modeler 7, MS Visio, MS PowerPoint, MS Sway,

	Libre office.Impress, FreeMind, Mind42, ViSta, MacANOVA,.	
	Matrixer.	
Information and	All educational components of the educational program "Management.	
methodological	Project Management" are provided with the following educational and	
support	methodological materials: textbooks, tutorials, lecture notes, methodical instructions and recommendations, individual tasks, collections of situational tasks (cases), examples of solving typical tasks or completing typical tasks, computer presentations, illustrative materials, resource	
	directories, etc. All teaching materials are available to students in the	
	reading rooms of the Scientific Library	
	http://library.kname.edu.ua/index.php/uk/, including in the Information	
	Room equipped with computers with Internet and LAN access to the	
	University, in the digital repository <a href="http://eprints.kname.edu.ua">http://eprints.kname.edu.ua</a> , on the	
	Distance Learning Center portal <a href="http://cdo.kname.edu.ua/">http://cdo.kname.edu.ua/</a>	
9 – Academic mobility		
National credit	Agreement for academic cooperation between O. M. Beketov National	
mobility	University of Urban Economy in Kharkiv and:	
	- National University "Ostroh Academy" (Ukraine, Ostroh), agreement	
	No. 03 / 2-20C of February 17, 2020;
